

Moving from iNet to the Synetra™ Client Portal

The Synetra™ Client Portal is the next generation of sample submission, study tracking, and document repository replacing the current iNet system, scheduled to go-live in 2026. We've taken your suggestions and feedback to enhance the system and usability while maintaining all the current iNet features you find useful.

You asked...we responded

You asked	Synetra™ Client Portal
Sample submission process enhancements	<ul style="list-style-type: none">• Sample Submission Forms (SSFs) can be amended until the forms are approved by the Project Manager, allowing clients to correct errors or make changes before the study begins.• Easier submission process with updated features, including the ability to clone previous submissions.
