

Product Discovery Step by Step Guide

1. Search for a product.

- **Use the search bar at the top to enter a material name, product number, or CAS number.**
- **Select a suggested result or press Search to see all matches.**

2. Compare options.

- **On the results page, tick the box next to products to evaluate side by side.**
- **Open the compare view from the bottom summary bar to see pack sizes, pricing, and key properties.**
- **Add your chosen item to the cart from the compare view.**

3. Explore product details.

- **Click the product number to view full details.**
- **Choose pack size and quantity.**
- **Click Add to Cart.**

4. Optional: Structure search (advanced).

- **Use Chemical Structure Search available from the search bar dropdown.**
- **Draw the structure in Marvin JS canvas and run the search.**

5. Finish.

- **After adding products, log in to unlock contract pricing and discounts.**
- **From Account Dashboard, you can share your cart, request a quote, or place your order.**
