

eMERGE™ Logistical Solutions

Millipore
Sigma

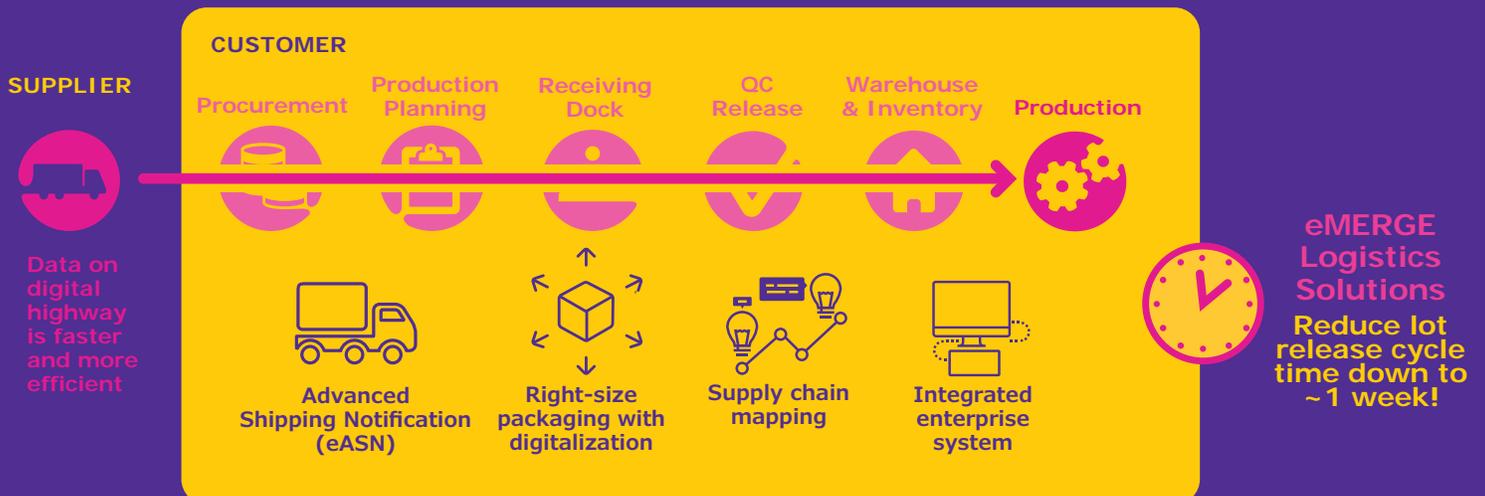

Tired of wasting time and resources? Join the Digital Revolution in Supply Chain.

Current Material Receipt Process

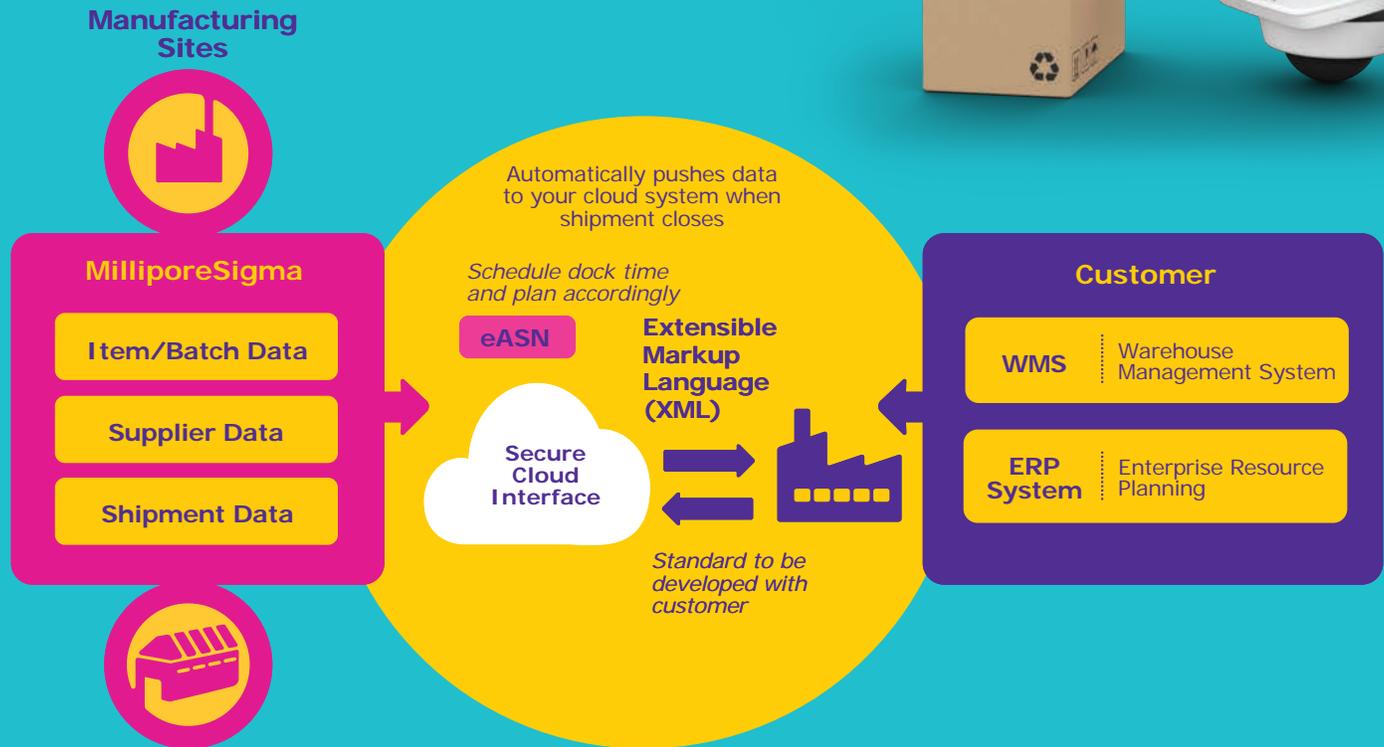

eMERGE™ Program is the Future

Data on digital highway is faster and more efficient

The e-Advanced Shipping Notification Solution is the First Step

Cut the time of scheduling goods & improve efficiency at the point of receipt.

Distribution Centers

eASN is more than transactional procurement data. It allows warehouse managers to schedule dock time and plan material receipt process ahead.

Right - Size Packaging with Digitalization

Supplemented with the eASN for fast verifications and approvals plus simplified raw material handling.

Right-Size Packaging
Align on units of measure, weights, gross net tare

Pre-kitted Packaging
Improves efficiency

LPN Scannable Labels
Customer lot #, trusted weights, supplier #, sample indicators

Pallet Labeled with Barcodes
For easy shipping, receiving & inventory

Future Expansion & Opportunities

Quicker receiving, lower costs, and proactive demand system.

The Value of eMERGE™ Logistics Solutions

Enables improved production process planning and manufacturing execution.

Minimize human errors & labor costs on manual data collection, entry and review

Reduce warehouse footprint & inventory costs with right-size packaging & palletization

Optimize Raw Materials Receipt & Approval Process

Improve transit visibility to inbound shipments

Speed up production schedule with faster digital pre-receipt process

Embark on Your Digital Supply Chain Transformation Journey

- 1** Start your digital transformation journey
- 2** Build a standard platform solution for flexibility & scalability
- 3** Establish close collaboration and trust between suppliers & manufacturers
- 4** Involve multi-functional subject matter experts
- 5** Open sharing of process and application information
- 6** Achieve incremental business improvements
- 7** Work together on future technology roadmaps and expansion objectives
